Corollary

content...

Fact

content...

Lemma

content...

Proof

trivial

Even more boxes

Definition (of a definition)

A **definition** is what is in such a box.

Title of the block element

Just another block with content.

Attention!

content...

A plain frame with a figure and a table.

Figure: HvA

Hogeschool van Amsterdam

A	B	C
D	E	F

Table: A table without content

Section titles show up in the footer

And what if there is no section?

If a frame is outside any sections, (short) title of the presentation if used. In case this is empty too, author is used.
